Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant and Applicant's representative discussed the claims and explained how they felt the claims distinguished from the teachings of Jacobi et al. Applicant's representative further presented potential claim amendments. Examiner pointed out the alternative language in the claim and the single user nature of the claim, explaining how the claim did not currently capture the dynamic nature of the invention explained by the applicant. Examiner agreed to a followup interview if applicant felt that would aid prosecution. Examiner awaits action by applicant.
